### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claims were allowed since the prior art did not show the limitation of 10% particles smaller than about 2 microns. The reference to Wong et al. 6,010,737, disclosed that 30% of the water insoluble solids in the nut butter had a particle size of less than 6.2 (abstract). However, no disclosure was found that 10% of this amount would have had particles smaller than about 2 microns. Also, there was no reason to combine the references to arrive at the claimed Brookfield viscosity, or spreadability since the claimed particle size as above was not found.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Helen F. Pratt whose telephone number is 571-272-1404.
